

# AP Macroeconomics

## Los Amigos High School Syllabus

**Instructor:** Mr. Hawley

**Website:** [laapush.org](http://laapush.org)

### Description

A.P. Macroeconomics is a college level class for high school students. Students receive college credit upon passing the AP exam. It explores resource allocation from the perspective of the whole economy.

The class has a flipped-mastery structure. A flipped class turns the traditional structure upside down. As homework, students take Cornell notes from lectures stored on the class website. The skill development normally associated with homework is done in class. This allows the instructor more time to meet the individual needs of the students. In a mastery class, students learn a series of lessons at their own pace. Students demonstrate mastery of a lesson's themes and thinking skills on a summative assessment. For students who do not master a lesson, remediation is provided and the student is given another assessment. Those who do master move on to the next lesson.

### Themes

1. Graphs as models of aggregate economic activity
  - Students will graph and create a written analysis for a variety of macroeconomic situations.
  - Graphs utilized:
    - Production Possibilities Curve
    - Supply and demand
    - Short-run and long-run aggregate supply with aggregate demand
    - Loanable funds market
    - Money market
    - Foreign exchange market
    - Short-run and long-run Phillips curve
2. Utilization of resources within and across countries
  - Students will graph and analyze problems in specialization, comparative advantage, and international trade.
3. The critical evaluation of determinants of economic progress
  - Students will calculate and assess a variety of problems in national income accounting, productivity, and growth.
4. The significance of economic decisions made by policymakers
  - Students will graph and analyze the likely outcomes of various monetary and fiscal policies.

## **Textbook**

Mankiw, N. Gregory. Principles of Economics 4<sup>th</sup> ed. Mason, Ohio:  
Thompson Southwestern, 2007

## **Notebooks**

All students are required to record notes in Cornell University style for all lectures and place them in an interactive notebook. All notebooks will conform to the interactive notebook guidelines given during the 1st week of instruction.

## **Summative Assessments**

These will come in formats based upon the themes and thinking skills required by the lesson. They may include:

1. Written responses to an FRQ
2. Oral presentation, discussion, or debate
3. Media creation

## **Tests**

In addition to the summative assessment for each lesson, there will be 6 unit exams and a final exam.

## **Units**

### **Basic Economics**

1. PP Curve
2. Circular Flow
3. Economic Systems
4. Demand
5. Supply
6. Equilibrium

### **Measurement of Economic Performance and Growth**

7. GDP
8. Price Indices
9. Inflation
10. Unemployment
11. Growth

### **Financial Sector**

12. Money
13. LF&FRB
14. Fed

**Open Economy: International Trade and Finance**

- 15. Comparative Adv.
- 16. Trade Barriers
- 17. FX

**National Income and Price Determination**

- 18. SR to LR
- 19. AD
- 20. AS

**Stabilization Policies**

- 21. Phillips Curve
- 22. Classical Econ
- 23. Keynesian Econ
- 24. Monetarism
- 25. Supply Side Econ

## Class Expectations

1. **All students are expected to take the AP Macroeconomics examination.**
2. All students are expected to keep a notebook and take Cornell notes for all lectures (using the guidelines given in class). These should be completed before the assigned due date in order to fully participate in the relevant classwork activity.
3. All students will participate in all in-class developmental activities including group and whole-class discussion.

## Classroom Policies

1. Everyone will be treated with respect.
2. No one will disrupt the learning process of others.
3. Students will obey the guidelines given for the use of electronic devices.
4. The school tardy policy will be strictly enforced.
5. **No eating** while you are in the classroom.
6. All students must come prepared to class with the necessary materials.
7. All assigned work must be ready to be presented at the **beginning of the period** in which they are due.
8. Following an absence, it is the **student's responsibility** to find out about any assignments that they may have missed. Work not completed because of trancies or unexcused absences may not be accepted.
9. Late work in the notebook from a previous unit may be not made up after the subsequent unit exam. For example, late work from Unit 4 will not be excepted once the Unit 5 exam has taken place.
10. Students will remain seated until they are dismissed. **No one may leave early.**
11. **Cheating of any kind will not be tolerated.** Any student caught cheating will receive a zero score on the assignment in question, a "U" in citizenship, and lose all extra credit points for the entire semester. The school cheating policy will also be observed.

Grades will be determined on a standard percentage scale. If you obtain 90-100 percent of all possible regular points you will receive an "A," 80-89 = "B," 70-79 = "C," 60-69 = "D," 59 > "F."
