

Economics Analysis Rubric

	0	1	2
Mathematics 0-2	The mathematical response does not address the prompt. No graphs have the appropriate structure or labels. No formulas or calculations are correctly executed and shown in the response.	The mathematical response partially addresses the prompt. Some graphs have appropriate structure and labels. Some formulas or calculations are correctly executed and shown in the response.	The mathematical response effectively addresses the prompt. All graphs have appropriate structure and labels. All formulas or calculations are correctly executed and shown in the response.
Written Commentary 0-2	The written response does not address the prompt. Most of the writing does not correlate with the mathematical response. Economic terms are not defined.	The written response partially addresses the prompt. Some of the writing correlates with the mathematical response. Some economic terms are defined.	The written response effectively addresses the prompt. The writing correlates with the mathematical response. All economic terms are defined.
Cause and Effect 0-2	No causes of economic change are identified and demonstrated. No effects of economic change are explained.	Some causes of economic change are identified and demonstrated. Some effects of economic change are explained.	All causes of economic change are identified and demonstrated. All effects of economic change are explained.
